

## Drugs & Medications Penalty Guidelines

### Introduction

These Drugs & Medications Penalty Guidelines (“Guidelines”) have been prepared to inform the Federation membership of the types and ranges of penalties that have been imposed for rule violations based on the categories below. These Guidelines also assist the Hearing Committee Panels in the imposition of consistent and efficient penalties.

### Penalty Range is a Guideline Only

The penalty types and ranges below are simple guidelines and are not mandatory. These Guidelines are intended to provide a basis upon which discretion can be exercised consistently in like circumstances but are not binding on the Hearing Committee Panels. Depending on the facts and circumstances of each case, a Hearing Committee Panel may determine that no purpose is served by imposing a penalty within the range provided in these Guidelines. In some cases, a penalty below the stated range, or no penalty at all, may be warranted. Conversely, a Hearing Committee Panel may determine that the facts and circumstances of a specific case may call for the imposition of penalties above or otherwise outside of a stated range. Examples include, but not are limited to, prior rule violations, egregious misconduct, the need for increased deterrence, or certain policy considerations.

### Hearing Panel Discretion

Federation Hearing Panels must always exercise judgment and discretion and consider appropriate aggravating and mitigating factors in determining appropriate penalties in every case. In addition, whether the penalties are within or outside of the range stated in the Guidelines, Hearing Panels must identify the basis for the penalties imposed.
